

other distinguishing ingredients.

Once the paste is homogeneous, it is laminated to form a pastry.

From the pastry, brass moulds shape the sweets that are then dried.

The good sweets made like yesteryear

Candy craft

Established in 2011, Polar Mint di Alessia Pilotto was born from the acquisition of an artisan's workshop specialized for over 40 years in the production of tragacanth sweets.

Combining craftsmanship and quality, Polar Mint

produces sweets that remind you of the old tastes of mint, aniseed, liquorice and fruit sugar pastes. Here the methods of the old "bottega" and the modern control systems marry the selection of the raw materials and the skilful choice of natural ingredients without any

preservatives.

For the production of the tragacanth pastilles, we use a cold procedure characterizing and differentiating this type of sweets. We mix icing sugar, gum tragacanth and food jelly and add flavourings and
